

To whom it may concern:

I have completed my MBA studies with City University of Seattle in Prague and it is my pleasure to write this reference letter.

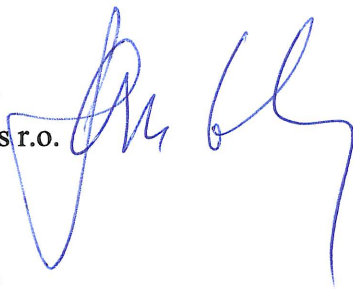

The courses were well organized and lead by well qualified professionals, providing a lot of useful information. The classes offered a pleasant place to study, while securing all the necessary background.

Due to the fact that most of the peer students are usually in high managerial position, it is a good opportunity to network with them. I personally created several relationships based on friendship and cooperation and I believe that it is a very important part of participating in an MBA program.

I would definitely recommend the program of City University in Prague to all those who seek a complex and up-to-date financial and business education of American standard inside the heart of Europe.

Yours Sincerely

Jan Korba
